ABSTRACT

This directory, the second of four volumes devoted to the description and tabulation of multicultural programs offered within the U.S. at the postsecondary level, continues the listings of ethnic studies programs begun in Volume I. The listings are organized according to both ethnic group and the state of particular institutions. Volume Two continues the tally of schools (arranged alphabetically beginning with California and ending with Massachusetts) that offer: a concentration; an undergraduate major or minor: an associate's, master's, or doctor's degree and/or a certificate. Page number references for the more detailed information contained at the end of the volume are also provided. Specifics of that information include faculty listings, student participation figures, and curriculum breakdown for each ethnic studies program. (LH)
